System Limitations

SYSTEM LIMITATIONS: This system estimates visual proxies for attention (head orientation, approximate gaze direction, eye-openness). It does NOT measure cognitive attention, learning, or comprehension. The XGBoost model was trained on synthetically generated data; real-world accuracy has not been independently validated. Results should be used only as a rough teaching aid, not as evidence of individual student performance or conduct.

Privacy Safeguards & Legal Notice

PRIVACY SAFEGUARDS: Video is processed entirely on-device. No raw video frames are stored. Only numeric metrics and anonymous student IDs are logged. Facial recognition is not implemented. Institutional ethical review and informed consent from students and parents/guardians are REQUIRED before any real-world deployment. Compliance with applicable data-protection laws (e.g., DPDP Act, GDPR) must be verified by qualified legal counsel — this software alone does not constitute legal compliance.
